

CUSTOM MILLWORK SHOP

“We strive to ensure that all our shop work meets the exacting standards of our discriminating custom builder clientele.”

National Millwork, a division of National Lumber, has become the leader in providing the New England building industry with customized solutions for its window, door and specialty millwork needs. By blending a variety of high quality millwork products with the ability to identify and deliver the best value, our experienced staff and technicians work closely with you to assist in creating distinctive building designs that reflect our region’s architectural heritage.

Adding to our expertise in helping you select the right product is our capacity to enhance the appearance of those products in our custom millwork shop. There, our craftspeople can create an almost limitless array of window and door arrangements and trim styles on our state-of-the-art machinery.

We have taken great care to gather talented people who take pride in the quality and precision of their work. Whatever customized millwork detail you desire can be created by our talented craftsmen.

SHOP SERVICES

Our team of talented craftsmen are the core of this modern millwork facility. State-of-the-art machinery enables us to manufacture quality custom products. This allows us to reduce the extended lead-time associated with special requests.
