

TURNCRAFT®

beautiful. durable. versatile. functional.

Turncraft® Poly-Classic® Columns are the product of choice for homeowners and builders who demand beauty, value and performance.

Poly-Classic® Columns are architecturally proportioned from rotocast fiberglass-reinforced polymer — the most advanced construction material in the world — so pound for pound they are stronger than concrete, steel, or aluminum.

With the look and feel of natural stone, Poly-Classic® Columns are available in popular tapered and non-tapered shafts that feature concise edges and meticulous attention to detail. Their hollow centers are useful for downspouts, wiring and plumbing.

POLY-CLASSIC® PORCH POSTS

*Shaped from Today's Most
Advanced Materials*

Now homeowners, commercial builders, and residential contractors can enjoy the traditional aesthetics of turned porch posts with the non-traditional benefits of one of the most advanced construction materials in the world today — fiberglass-reinforced polymer (FRP). Pound for pound, this material is stronger than concrete, steel, or aluminum.

- ♦ Limited-Lifetime Warranty
- ♦ Impervious to Insect Attack
- ♦ Mold and Mildew Resistant

Poly-Classic® Porch Posts are non-porous and waterproof. They are impervious to termite and carpenter ant attacks as well as staining and decaying fungi. High-humidity environments that are so hard on wood have no effect on Poly-Classic® Porch Posts; they are rot-proof because they absorb virtually no moisture. In fact, temperature extremes and thermal cycling have very little effect on FRP.

Turncraft® Poly-Classic® Porch Posts and Columns Limited- Lifetime Warranty

Turncraft® is so confident in its manufacturing processes for Poly-Classic® Porch Posts and in the inherent strengths of FRP that it offers a Limited-Lifetime Warranty to the original owner. Turncraft® warrants that Poly-Classic® Porch Posts will be free from defects in material and workmanship for as long as the original purchaser owns the structure to which the Poly-Classic® Porch Posts are attached.

***Freedom from Maintenance
— For Life!***

Poly-Classic® Columns are virtually maintenance-free. They are impervious to termite and carpenter ant attack as well as staining and decaying fungi. High-humidity environments have no effect on these non-porous, waterproof columns. All Turncraft® Poly-Classic® Columns are covered by a Limited-Lifetime Warranty to the original purchaser.

Now with Flame Guard™

Poly-Classic® Columns were the first fiberglass-reinforced polymer columns to achieve the distinction of passing an industry test (ASTME, 84-01) that measures the flame spread and smoke development of building components in a fire.

Ornamental Capitals

Designed with crisp, true architectural detail, Turncraft® Ornamental Capitals artfully capture natural themes and images. Made from fiberglass or composite materials that offer increased durability and low maintenance, Ornamental Capitals are available in various architectural styles and sizes.
