WEBB

create an elegant outlook

The classic lines and decorative patterns of clad and wood specialty windows will elevate your home from the ordinary. Precision crafted to offer long life and energy savings, these specialty windows are a striking addition to any home.

Clad and Wood specialty windows are available with various exterior types, grille patterns, interior casing profiles, extension jambs and glass options. Exterior types include aluminum-clad, vinyl-clad, and wood. Clad and Wood specialty windows come in venting or fixed-glass styles with a choice of three decorative patterns of beveled, tripane insulating glass.

Not all options are available in each style. Please contact your National Millwork Representative for styles and quotes.
