JELD-WEN®  
INTERIOR DOORS

*F* making a house your home

inding ways to reflect your style, your taste and your way of living is truly what turns a house into your very own home. Little details, like the way a well-crafted interior door feels when it opens and closes, create a sense of well-being in subtle but important ways. Families everywhere rely on JELD-WEN for many of these important details: the energy efficiency of their windows, the safety and security of their front door, and the steadfast performance of all products, including those inside. JELD-WEN materials and craftsmanship represent enduring quality: solid, familiar, just the way you like it. And whether your home is completely contemporary or traditional, choosing well will always mean looking to a trusted source — JELD-WEN.

Contact your National Millwork Representative for additional styles and selections.

**JELD-WEN® IMPRESSION™  
MIRROR DOORS**

You may well think of a mirror on a door as an image checkpoint, but the JELD-WEN® Impression™ provides an even greater function for the whole room. By reflecting light throughout, your room becomes brighter and appears larger. The mirror on the JELD-WEN® Impression™ sheds natural light throughout the room by day. At night, it will reflect the glow of your table lamps and other ambient light to add a warm comforting touch.
