

This Manufacturer's Certification Statement is provided to certify that JELD-WEN windows, patio doors, exterior doors and garage doors identified on our website as Products Eligible for Stimulus Tax Credits meet the specific energy efficiency criteria in Internal Revenue Code, Section 25C, as it is applied in the American Recovery and Reinvestment Act (ARRA). Each JELD-WEN product so identified has a U-Value (or U-Factor) and SHGC rating of 0.30 or lower. In addition, garage doors are required to be installed into specific structures to be eligible for consideration as tax credit qualified.

This certification statement should be retained by the taxpayer as it may be requested from the Internal Revenue Service (IRS) in the event of an audit. It is also necessary for taxpayers to retain the purchase receipt and the NFRC label for each eligible product showing a U-Value (or U-Factor) and SHGC rating of 0.30 or lower.

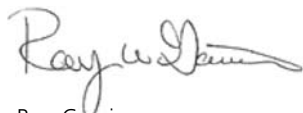

Homeowners should always consult with their tax advisor to confirm that they qualify for the tax credit. This document is intended solely to certify that the identified products meet the energy criteria, and not as an assurance that a homeowner will qualify for the tax credit.

The tax credit provided for by the ARRA applies to products purchased and installed from January 1st, 2009 to December 31st, 2010. For additional information on how to qualify for the tax credit, and which JELD-WEN products meet the energy criteria, please visit our website at www.jeld-wen.com/taxcredit.

PRODUCTS PURCHASED BETWEEN JANUARY 1ST AND JUNE 1ST, 2009

As the stimulus requirements were phased in, the Department of Energy ruled that any ENERGY STAR-qualified window or door purchased between January 1st and June 1st, 2009 and listed in the NFRC Product Directory (www.nfrc.org) is eligible for a tax credit as provided by the ARRA. In case of an audit, retain the NFRC label for each eligible product showing a U-Value (or U-Factor) and SHGC rating that meets the ENERGY STAR requirements for your region in that time period. For that information, visit, www.energystar.gov.

Under penalties of perjury, I declare that I have examined this certification statement, and to the best of my knowledge and belief, the facts are true, correct, and complete.

Wood Window NFRC Ratings

Products eligible for 25c – Non-Business
Energy Property Tax Credit

The performance information listed is for new products and is intended to be used for reference only, and is not complete. Depending on the components, accessories, and options chosen, the actual rating could vary. Confirm ratings for specific products with your supplier or JELD-WEN sales representative.

When ordering, please specify the glass option, as it may not come standard with the window. Consult with your JELD-WEN Sales rep.

† indicates Energy Saver Plus option.
